Wholesale Price List of GREEN PLANTS AND ROOTED CUTTINGS

Salem, N. J., March 10, 1941

GREEN PLANTS. Our plants are propagated from especially selected roots free from stunt or disease. They are from base cuttings, grown under moderate heat, are strong and stocky and thoroughly hardened before shipment. On and after May 1st we can ship plants to any part of the United States and guarantee them to reach you in good growing condition. They should be planted about five to six inches deep, well watered and shaded for a day or two.

WELL ROOTED CUTTINGS. Our cuttings are the same as those used in growing our strong plants and are so well rooted that we ship them very successfuly as far as the Pacific coast. As we cannot control delays and other damages in transit, we do not guarantee safe arrival. All shipments at purchaser's risk and expense. We advise express shipments and all orders will be so shipped unless wanted by P.P.; then charges must accompany order. We send extra stock to cover carrier charges. In case a package should reach you in a damaged condition, immediately make out a claim with the carrier, mail same to us and your order will be replaced. Upon arrival cuttings should be potted in flats or three-inch pots, well watered and gradually brought to the sun.

TERMS. Cash with order.

GUARANTEE. We guarantee our stock to be true to name and as represented. Money refunded if otherwise.

References, Dun's & Bradstreet's or any bank in the City of Salem.

Visit our gardens during blooming season. Besides the standard varieties herein listed, we are growing many more new seedlings this year than ever before.
